

OpenAid INTERNATIONAL

Building the Future of Global Community Through Blockchain Automation P2P System.

WHO ARE WE?

OpenAid International is a digital community platform designed to facilitate structured member-to-member donation cycle through a FiFo Sequential matching combination with blockchain automated matching system.

OAI was created with a vision to redefine how modern people participate in global p2p opportunities. Traditional financial systems often limit operation through centralized control, and create barriers for ordinary individuals across the globe.

WHAT WE FOCUS ON

- structured P2P participation
- Clear member dashboards and activity records
- Automated matching and queue management
- Community communication and notifications
- OpenAid Academy and practica l training

Our goal is to build a platform that is simple to use while maintaining clear rules, visible records, and responsible communicatio

OUR STORY

The idea of OAI was born after a deep search when millions of people around the world were searching for financial independence but continuously faced the

same problems of losing funds to scam websites.

The OpenAid vision is not limited to a single feature. We are developing a clearly defined processes, and access educational opportunities through OpenAid Academy

OUR PRINCIPLES

Transparency:
Communicate processes

Structure:
Use defined workflows instead of confusing manual processes.

Education:
Help members build practical trading knowledge

Responsibility
Continuously improve the platform, communicate risk and user experience.

THE OPENAID ECOSYSTEM

OpenAid International is designed as an ecosystem rather than a single feature.

P2P PLATFORM

Astructured environment for member-to-member participation, matching, cycle tracking, and confirmation.

OPENAID ACADEM

Educational resources covering practical trading and digital-finance concepts,with beginner and intermediate learning.

The beginner level is free for every active member while the Intermediate cost **$49**

HOW THE P2P WORKS

Make Donation (MD) & Received Donation (RD)

OpenAid's P2P model is organized around donation cycles. A cycle enters the queue and is processed according to defined matching

If A is the first person in the waiting queue or front, the system automatically matched or assigned 2 new incoming doners to A. When A receive full donation from the 2 members according to the FiFo Sequential matching rules, the system automatically remove A and push the next required receiver to the front.

Daily Donation Limit

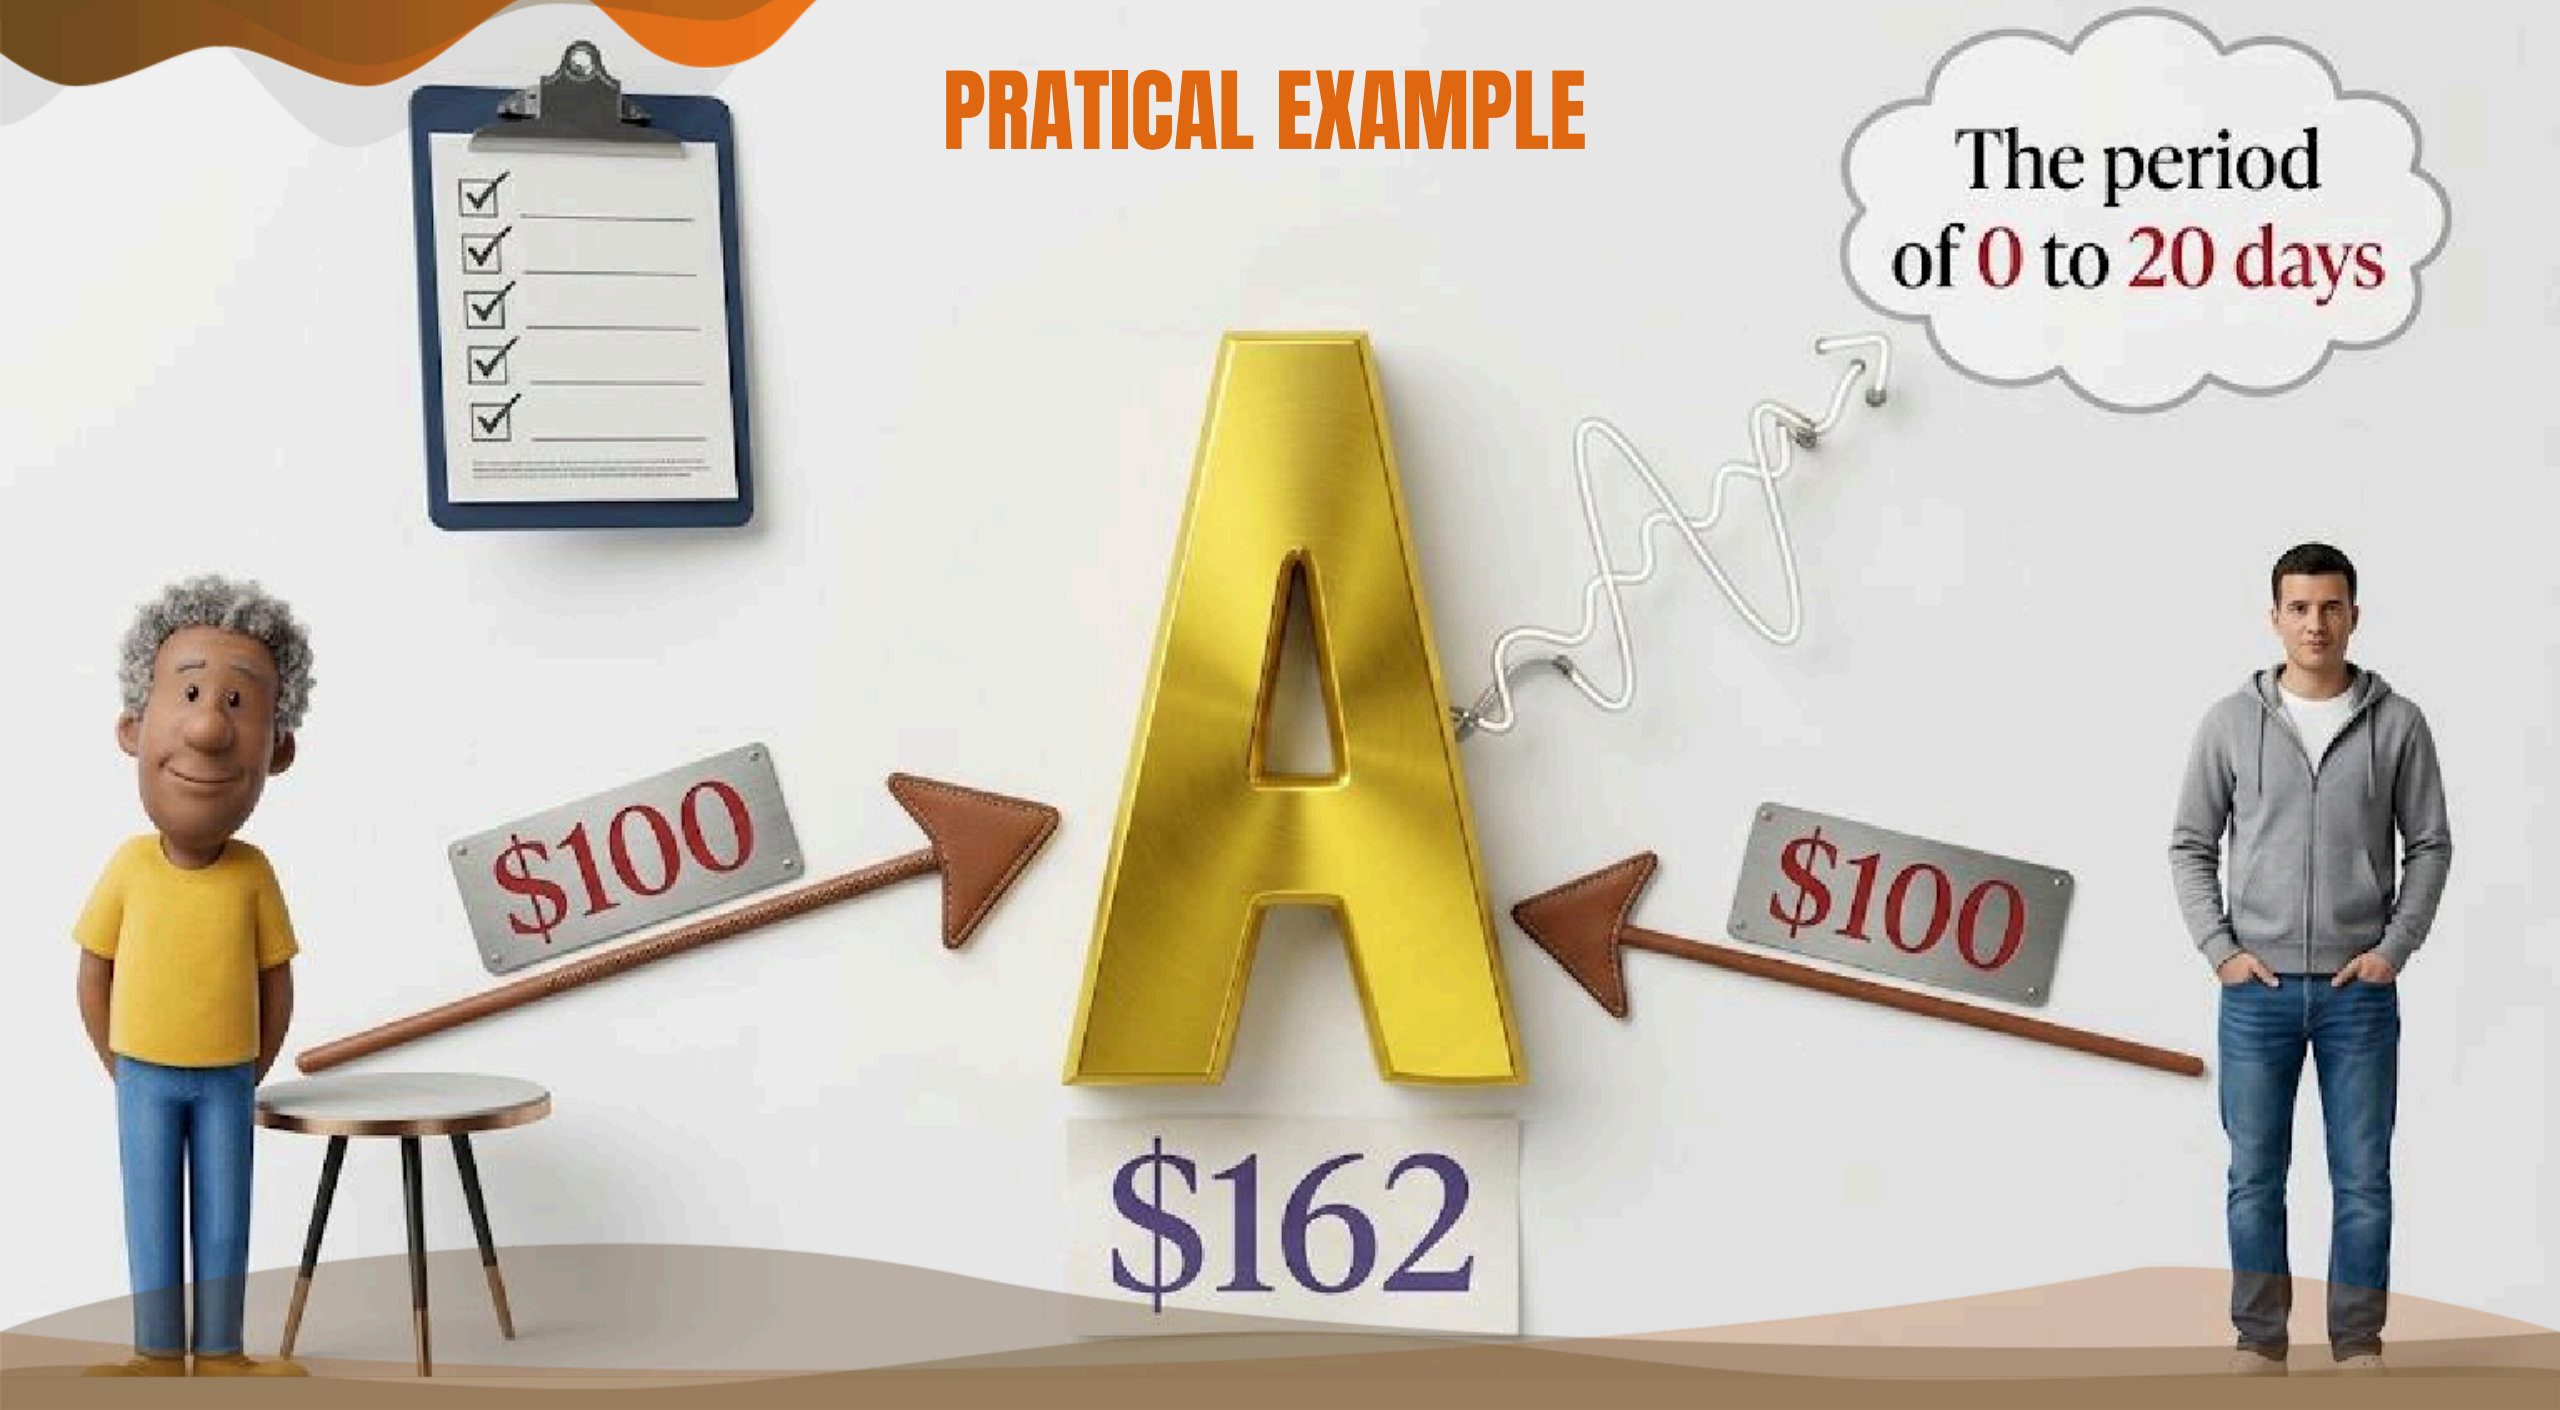

$100 2x /$200 2X

Credit Cost

$100 = $10 credit

$200 = $20 credit

PRATICAL EXAMPLE

PROFIT, WITHDRAWALS & RECOMMITMENT

01

PROFIT
For every completed cycle, user received up to 62% as a donation profit on all donations packages. Every donation joins the matching queue and expect to complete within 20 days or more

02

RECOMMITMENT
For sustainability and longevity of our community, we have implemented a recommitment policy. After completing a cycle the user must recommit by making a new donation of the capital. Once the recommitment is done, user receive his or her 62% profit instantly.

03

WITHDRAWAL
Commission and Donation Profit Can Be Withdrawn Instantly. No admin is Required. Everything Blockchain Automated .

DONATION PACKAGE

There are 4 packages in which auser canchose to participateandevery package has their own unique queue position.
The 62% profit after cyclecompletionis applies to all the donationpackage

Each package comes with a 10% worth of Credit as a platform fee.

DONATION PACKAGE	PROFIT AFTER CYCLE COMPLETION
$100 + $10 fee	$62
$200 +$20 fee	$124
$500 + $50 fee	$310
$1,000 + $100 fee	$620

Currently, only the first 2 packages are allowed. As the community grows, we may add the rest packages

LEVEL INCOME

Structured income flow from your network across 7 levels. Unlock deeper levels by growing your team and self-donation.

Level 1	8%
Level 2	2%
Level 3	2%
Level 4	2%
Level 5	2%
Level 6	1%
Level 7	1%
